DETAILED ACTION

Response to Amendment

This Office Action is in response to applicant's amendment filed on September 14, 2005. Claim 16 has been amended. Applicant's comments pertaining to the Gold reference have been carefully considered however deemed not persuasive.

With regards to applicant's comments pertaining to the "compression stocking" which was recited only in claim 3, Applicant is first of all respectfully reminded that claims in a pending application should be given their broadest reasonable interpretation. The introductory statement of intended use and all other functional statements have been carefully considered but deemed not to impose any structural limitations on the claims distinguishable over the Gold reference in the sense of 35 USC 102 which is capable of being used as set forth in the claims

With regards to the heater pack, Gold teaches that the heater packs of various sorts are well known in the art (column 1 lines 22-26). In particular, well known the heater packs such as the one mentioned in U.S. Patent No. 5,984,953 to Sabin et al which relates to a self-heating thermal heat pack provided through the use of preformed reversibly stiffened gel that alters the rate of exothermic chemical reactions. Therefore it the heater pack mentioned in the Gold reference can be immediately directed to the Sabin et al's thermal heat pack.

The Gold reference applied in the previous Office Action stand rejected.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
